

I oppose weakening Indiana's no call law, which is being challenged in this cause. In order to stop these unwanted calls from companies with which I have an "established business relationship: would require me to spend money to get caller ID, which is not, as you are well aware, failsafe. Please allow Indiana to handle it's own phone service. Millions of us have chosen to be on no call lists. The federal government should stay out of our phone business and keep big business out of our homes, unless we wish to talk to them. Thank you for your consideration.
